middle-earth shadow of mordor - flame of anor rune

lights foes on fire pretty use full but it rarely happens. Got it in the GOTY edition ;). This is not DLC, it's something that should've been in the base game, not worth it if you didn't get the season pass. DLC implies content that changes the game majorly and this doesn't, DLC shouldn't exist to begin with.. Beautiful! Nothing more to say!.. I kinda like setting orcs on fire but its really not worth the price you have to pay for it. Next time ill just stick with cutting their heads off for free.. Got it in the GOTY edition and it's awesome to set fire to the Uruks (yeah, they're not orcs).. Sick of all these people takling bad about this game and its dlcs. Like really grow up. Either play the game without the dlc's or dont. But these dlc's are amazing. Really makes the game more better.. it says 20% chance to ignite on the rune, but honestly this thing glows all day long when I have it equipped. I Picked up the ultimate pack for this game and all DLC's including the DLC are part of it. So with the 40% off sale most of this stuff was free to me and worth every penny. I don't understand why people complain about .99 cent DLC's. They are giving you the option to buy them piecemail for basically nothing. You can barely buy one cig for a dollar these days. This

game is awesome top to bottom, any DPC is a plus in my book.. Just some more pointless DLC. Not recommend can't play as Spice Girls
